WINS HIS FIGHT

Judge James B. Platt in the U. S. District Court endorsed the recommendation of Referee in Bankruptcy J. W. Banks yesterday and discharged Dow R. Beebe, the dentist from bankruptcy.

The petition of the dentist for discharge was strenuously opposed by Mrs. Edward Mora who held a judgment against the bankrupt for injuries received by being run down by a motor car he was driving. State's Attorney Stiles Judson was counsel for Mrs. Mora. An effort was made to show that the dentist had transferred the bulk of his property to his wife to escape judgment. He was pushed so closely with questions that he swooned on the witness stand in one hear-

Number of Key Workers Robberies in Broad Daylight Now 17.

The boldness and skill of the man who is entering residences in different parts of the city is astounding. After looting the rooms of Edward T. Ecklund on the top floor of the big six family house at 77 Olive street, on Wednesday, and also those of Max Stein on the floog below, he returned to the same building yesterday and between 3 and 4 o'clock in the afternoon entered the rooms of Axel Morine on the third floor of No. 79, rifling the drawers in the rooms and taking away valuable jewelry. The robbery at 77 was reported to the police and Detective Fox was assigned to the job. While he was supposed to be looking for the thief, that masterly gentleman returned to the house and continued the work of relieving the congestion of wealth of the place at his own convenience. He did not leave his card for Fox.

Fox.

In this one building this expert keyworker has so far added to the store of stolen goods which he has been accumulating for months in the city by the use of what must be the finest set of skeleton keys ever used in this city. The contributors to his stock in two days and in one building are Edward F. Ecklund, gold watch \$25, three gold rings \$20, and change taken from a child's bank amounting to about \$1; Max Stein, pocketbook containing several dollars in money; Axel Morine, gold watch valued ata \$25, and gold ring worth \$10.

Fortunately, yesterday a good look

Fortunately, yesterday a good look at the mysterious visitor was obtain-ed by little Johnny Eklund, who sat on the front steps of the house when the stranger passed out. The boy's description added to that of the women in the house who have caught g impses of the man results in the conviction that the man is tall, about 40 years of age, dark mustache, trimmed short, black Derby hat, dark brown pants, short box coat.

short box coat.

As he passed out of the house the man stopped and petted the big St Bernard dog owned by Mrs. Ecklund. The dog is not over friendly but the boy says the stranger seemed to be well acquainted with him. This dog was on the front porich of the house when the apartments his mistress, Mrs Ecklund were rifled on Tuesday.

The places entered yesterday bring the list of the daring day ight k-y workers victims up to 16 or 17, all of which have taken place within the last few weeks.

Mrs. William Brown, who occupies the first floor of number 77 Olive str et saw the local Raffles on Tuesday but could get only a fleeting glance at h m as he passed out the front door of the place. Her description tallies with that of the Ecklund boy.
